## Net Interest Income

The current quarter net interest income of $\$ 204$ million decreased $\$ 1.3$ million, or 1 percent, compared to the prior quarter and increased $\$ 16.4$ million, or 9 percent, from the prior year fourth quarter. The current quarter interest income of $\$ 225$ million increased $\$ 10.7$ million, or 5 percent, over the prior quarter and was driven primarily by the increase in the loan portfolio and an increase in loan yields. The current quarter interest income increased $\$ 32.3$ million, or 17 percent, over the prior year fourth quarter due to organic loan growth and increased loan yields, which more than offset the $\$ 8.5$ million decrease in interest income from the PPP loans.

The current quarter interest expense of $\$ 21.0$ million increased $\$ 12.0$ million, or 132 percent, over the prior quarter and increased $\$ 15.8$ million, or 304 percent, over the prior year fourth quarter primarily the result of an increase in borrowings to fund the Company's loan growth and reduction in deposits. Core deposit cost (including non-interest bearing deposits) was 8 basis points for the current quarter compared to 6 basis points in the prior quarter and 7 basis points for the prior year fourth quarter. The total cost of funding (including non-interest bearing deposits) was 35 basis points in the current quarter compared to 15 basis points in the prior quarter and 9 basis points in the prior year fourth quarter which was the result of the increased borrowings and borrowing rates.

The Company's net interest margin as a percentage of earning assets, on a tax-equivalent basis, for the current quarter was 3.30 percent compared to 3.34 percent in the prior quarter and 3.21 percent in the prior year fourth quarter. The core net interest margin, excluding discount accretion, the impact from non-accrual interest and the impact from the PPP loans, was 3.27 percent compared to 3.29 percent in the prior quarter and 3.04 percent in the prior year fourth quarter. The core net interest margin decreased 2 basis points in the current quarter as a result of increased borrowing costs. The core loan yield of 4.79 percent in the current quarter increased 19 basis points from the prior quarter core loan yield of 4.60 percent and increased 36 basis points from the prior year fourth quarter core loan yield of 4.43 percent. "The Bank divisions have been excellent in pricing loans at higher yields as interest rates have increased," said Ron Copher, Chief Financial Officer.

## Non-interest Income

Non-interest income for the current quarter totaled $\$ 28.5$ million which was a decrease of $\$ 1.9$ million, or 6 percent, over the prior quarter and a decrease of $\$ 5.9$ million, or 17 percent, over the same quarter last year which was primarily driven by the decrease in gain on sale of residential loans. Gain on the sale of residential loans of $\$ 2.2$ million for the current quarter decreased $\$ 1.7$ million, or 43 percent, compared to the prior quarter and decreased $\$ 9.3$ million, or 81 percent, from the prior year fourth quarter. The current quarter mortgage activity was lower than prior periods as a result of the continued reduction in residential purchase and refinance activity as mortgage rates continued to rise.

Compensation and employee benefit expense of $\$ 79.8$ million increased $\$ 2.1$ million, or 3 percent, over the prior year fourth quarter primarily from annual salary increases and benefit adjustments which more than offset the decrease in commission expense resulting from the slowing of mortgage loan sales. Other expense of $\$ 20.7$ million for the current quarter decreased $\$ 8.0$ million or 28 percent from the prior year fourth quarter and was the result of the decrease in acquisition-related expenses and the current quarter gain on the sale of the former branch buildings.
