- Promote accountability throughout the Corporation through the Three Lines of Defense model
- Oversee the enterprise risk management practices of the Corporation in relation to the identification, measurement, monitoring, and controlling of the Corporation's principle business risks. Principle business risk categories include but are not limited to: strategic risk, credit risk, market sensitivity risk, liquidity risk, operational risk (including Cyber Risk), regulatory / legal / compliance risk, and reputation risk.
- Provide an open and ongoing communication forum between management, third parties, and the Board to discuss risks and risk management.

The breadth of the Committee extends over the entire enterprise, including the parent company, bank, bank divisions, and subsidiaries. The Committee will primarily fulfill these responsibilities by carrying out the activities enumerated in Section IV of this Charter.

The Committee shall be comprised of three or more independent directors as determined by the Board. The Committee should also include at least one risk-management expert with experience in identifying, assessing, and managing risk exposures of large complex firms.
